BS SERIES HAND PALLET TRUCKS

Bishamon®

Bishamon BS Series Blue Label Pallet Trucks are easy to use and exceptionally durable. These premium pallet trucks have many features not found on most competitive models and provide unsurpassed rollability.

Blue Label pallet trucks are designed and manufactured to easily move palletized loads. By utilizing top quality components and advanced manufacturing techniques, Bishamon's BS Series pallet trucks can be expected to outlast competitive models that promise comparable quality. Bishamon pallet trucks are completely rebuildable and offer many extra years of valued service.

Blue Label Pallet Trucks are available in three capacities, two fork widths, four fork lengths and two fork heights. A heavy duty model increases capacity to 6,500 lbs. and a low profile model decreases fork height to 2 in.

Blue Label Pallet Trucks are found in warehouses, factories, stockrooms, supermarkets, workshops, cold-rooms and freezers. They may also be used on loading docks and inside trucks.
