

XDS-3000

Extra Dock Safety

DOOR & DOCK GUARD

- The raised guard is designed to prevent forklift roll-off when the overhead door is open and no truck is present and to protect overhead doors and tracks from regular impact damage
- Hydraulically activated, high tensile checker plate safety barrier, towering over 7" (178 mm) above the deck
- Stops up to 10,000 lb (4,545 kg) rolling loads at 4 mph (6.4 kmh)

TL85 SAFETY VEHICLE RESTRAINT

- Hydraulically activated, non-impact design restraint system that securely holds trailer to the loading dock
- Highly visible lights communication system warns driver and dock attendant of safe/unsafe, park/depart conditions
- Remote, 1/2 HP TENV power pack with mounting bracket and 24' (7,315 mm) hydraulic hose (available in standard single and three phase voltages)
- Manual override and electronic timer
- Nitride coated cylinder rod to prevent corrosion with weather resistant switches
- Completely sealed submersible cylinder vented to power pack reservoir

XDS-3000 Safety Features

- Control station with large emergency stop button for added safety
- Key operated guard override with light warning signal for ground-level hand bombing applications
- Vehicle restraint interlock to prevent release of restraint until dock returned to stored position
- Key operated restraint override that allows leveler to be used in instances where no rear impact guard is present (inside and outside lights remain in flashing red mode)
- Dock leveler interlock to prevent cycle of dock leveler until vehicle restraint arm is in position
- Safety maintenance strut on dock leveler
- Full operating range toe guards with safety striping on dock leveler for maximum operator safety
- Hydraulic (velocity fuse) fall-safe system to prevent platform free-fall
- UL/CSA approved motor and electrical components
- Dual purpose lip keepers for both cross traffic support and automatic night locks to prevent building access through the leveler
- Bumpers to protect the building wall

BLUE GIANT®

XDS-3000

Extra Dock Safety

Dock Leveler

- Available in 30,000 lb (13,636 kg) to 80,000 lb (36,364 kg) capacities
- Heavy-duty I-beam deck construction and exclusive 4" (102 mm) maintained deck tilt prolongs deck life and prevents forklift damage
- Fully hydraulic operation with 1 HP self-contained TEFC maintenance-free power pack (not illustrated), designed to provide years of trouble-free use (available in standard single and three phase voltages)
- Auto return to cross traffic position from above and below level
- 16" (406 mm) long lip (lip is tapered on 7' (2,134 mm) wide models)
- Pivot points fitted with pre-lubricated bushings
- Terminal block provision for overhead door interlock
- Two laminated 4.5" x 14" x 10" (114 mm x 356 mm x 254 mm) bumpers

Communication Package

- Fully gasketed NEMA12 (oil, dust and water resistant) enclosure that controls operation of the dock, guard and restraint
- Vehicle Restraint and Door & Dock Guard supervisor key override for unique application requirements
- Independent push buttons with fully hydraulic operation for deck and lip
- Dock leveler emergency stop and reset buttons
- Easy to follow instructional graphics
- Inside and outside communication system including LED exterior lights and dual driver warning signs

| MODEL | DECK SIZE INCLUDING LIP | |
|-----------|-------------------------|----------------|
| | W | L |
