Cubic Designs Inc.
CUSTOM MEZZANINE SYSTEMS

When you are faced with space problems, a custom designed Cubic Mezzanine is the perfect solution. Cubic Mezzanines add a second or third level inside your facility and turn unused cube into usable space. Cubic Mezzanines are professionally engineered and backed by a lifetime warranty. We cover all details from on-site measurements to complete mezzanine design, fabrication and worry-free installation.

CUBIC MEZZANINE ADVANTAGES

- Offset rising space costs.
- Save new construction costs.
- Eliminate leased space.
- Affordable solution that utilizes cube.
- Double or triple your existing space.
- Save land acquisition and energy costs.
- Improve inventory management & control.
- Create more space without expanding.
- Customized to fit your exact space needs.
- Expandable to meet future growth needs.
- Easy to disassemble and relocate.
- Save insurance premiums and property taxes.
- Streamline logistics and improve communication.
- Reduce building maintenance.
- Qualify for accelerated tax depreciation.

CUSTOM DESIGNED TO MEET YOUR NEEDS

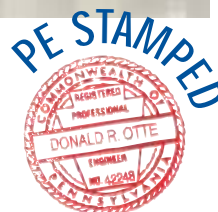

Cubic Mezzanines are customized to fit your exact area, height and load requirements. Create new production, office, storage or assembly space, locker rooms, parts departments, stockrooms, cafeterias, company records storage, work platforms, distribution centers and more. Choose from single or multi-level designs including freestanding, full mat and shelving supported mezzanines customized to your specific application. Add a vertical lift, rack, shelving, carousels, conveyors, in-plant offices – whatever you need to help you maximize your cube and improve building usage.

PROFESSIONALLY ENGINEERED

Cubic Designs' engineers registered throughout USA. Latest CAD technology improves design capabilities. Engineering staff has over 40 years experience. All calculations checked by on-staff registered PE. PE-stamped drawings assure structural integrity. PE drawings facilitate permit approval.

Cubic Designs Inc.
CUSTOM MEZZANINE SYSTEMS
