MonsterCombo® Bins

MonsterCombo® Bins are versatile, multi-use bulk containers for use in a variety of industries. These tough, durable, yet lightweight bins provide improved in-plant handling and over-the-road hauling capacities. Scientifically-engineered for added strength, MonsterCombo Bins are rotationally-molded of USDA/FDA/CFIA-approved polyethylene. Every MonsterCombo Bin holds up to the tough challenges associated with the handling and transport of food products and bulk materials.

Standard footprint: 48" x 44"

Available in heights from 30" to 62"

Features:

- ◆ Molded for extra strength with proprietary resin
- ◆ Extra thick corners and base resists impact and wear
- ◆ Reinforced top edge adds strength and resists splitting
- ◆ Smooth, seamless surface is easy to clean
- ◆ Costs less than stainless steel and lighter weight makes them easier to handle
- ◆ 2-way and/or 4-way forklift and pallet jack entries available
- ◆ Nestable/stackable 2-high with optional lid
- ◆ Stainless steel hardware on replaceable bases
- ◆ Optional drains available

Specialty Bins

PolyCombo Bins

PROMENS' versatile, multi-use bulk containers are ideal for the food, chemical and pharmaceutical industries. They provide improved in-plant handling and over-the-road hauling capacities. Scientifically-engineered for added strength and Roto-molded of FDA-approved polyethylene, these bins are tough, durable and lightweight.

PC 3000

PC 1240

DIVIDER BIN

Insulated Carts & Buggies

These strong, double-wall, wheeled carts and buggies are ideal for handling wet and dry goods. Nylon wheels, stainless steel axles and ergonomic handles make them extremely maneuverable. Capacity ranges from 400-1,000 lbs. Standard color is blue.

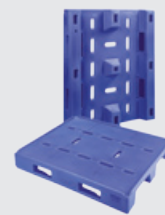

Versa-Totes / Tra-Totes

Perfect for field agricultural harvesting, seafood, meat, poultry and/or processed food handling. Heavy duty 1,500 pound capacity. 90% nestable; stacks 3-high with lid (included).

Multi-Purpose Containers

Constructed from a double-wall polyethylene shell and insulated with a layer of expanded polyethylene. They are light, durable, hygienic and completely recyclable.
