# The Polar<sup>®</sup> Insulated Container System Dry Ice

[www.promens.com](http://www.promens.com)

# Pharmaceutical & Laboratory Dry Ice Specialists

- ◆ Ideal for storage and transport of dry ice pellets and blocks
- ◆ Special compounded resins for superior cold impact properties
- ◆ Superior insulation for lowest sublimation rates

Promens premium Polar® Insulated Containers continue to play a vital role in the food service, grocery distribution, dry ice and dairy industries. While these markets are varied, they require the storage and shipment of temperature-sensitive products.

When it comes to transporting and storing temperature-sensitive food products, Polar Insulated Containers have proven most effective – they simply keep frozen products below freezing longer, even without dry ice. Every Polar container is designed for durability and are rotomolded from tough FDA-approved polyethylene with two inches minimum of polyurethane foam insulation. These containers provide ideal dry ice shipping and storage.

## Polar® containers exceed competitive plastic and/or cardboard products!

\*Test performed using PB30

Dry ice block average weight = 56-60 lbs.  
 Dry ice block average size = 10" x 10" x 12"  
 A cubic foot of dry ice pellets weighs approximately 52 lbs.

\*Volumes for each container are measured using tap water and the measurements taken 1" from rim of box.

NOTE: Unless specified, all weights relate to box only. Dimensions and weights are +/- 2%. Height dimensions include lid on the container.

## Polar® Dry Ice Merchandiser

- ◆ ID 23" x 23" x 29.25"
- ◆ OD 28.5" x 28.5" x 37.5"
- ◆ Weight 133 lbs
- ◆ 2" thick insulated internal pad with tight fit
- ◆ Double-wall, foam-filled construction for optimum insulation
- ◆ Tether system bracket to prevent theft
- ◆ Stainless steel hardware
- ◆ Available in corporate colors (subject to minimum quantity)
- ◆ Plexiglas® advertisement protectors on front & sides
- ◆ Lockable cover with silicone gasket to reduce sublimation

Gas shock keeps lid safely open

2" thick insulated pad, silicone gasket on lid
