

SATURN

Portable Strapping System SP-9900

Quickly, easily and securely strap pallets anywhere in your plant! Simply push the strapping arm into the pallet and loop the strap around the pallet. Insert the strap into the seal head and in less than two seconds it automatically tensions and heat seals the strap. Engineered for flexibility, allowing you to use from 3/8" to 5/8" wide polypropylene strap. Easy-to-use controls include strap tension from 10 to 120 pounds, strap length, reset, strap jog, and strap forward and reverse. Strapping arm is 41" long and pivots up and out of the way when not in use. Operates on standard 115 volt electrical.
