

EXTENDED LENGTH BULK CONTAINERS

The proven balance of strength and versatility

Buckhorn's extended length bulk containers are the ultimate solution to transport and store your long, bulky items, such as automotive trim parts, hoses, pipes, and harnesses. These boxes are rated for 2,000 lbs. capacity, collapse flat in seconds and stack for storage and return shipping – optimizing space usage and saving money on returned freight. Hand-hold areas on the panels provide a comfortable grip for assembling and collapsing the containers.

Ideal for use in a variety of applications from appliance and electronics to HVAC and fabricating, count on reliable performance with features that support superior durability, strength, and efficient handling.

Delivering Value Beyond the Box

- Choose the right container to fit your application with four footprints and up to four height options
- Single, one-piece molded base ensures maximum strength, stability, and safety for load handling
- Latches on doors and sidewalls provide quick and easy assembly, knock down, and access to contents
- No hinge pins – walls snap in place and remove quickly for replacement
- Non-sequential folding of walls allows quick collapsibility
- Drop doors available on up to all four sides to match your needs
- Optional steel corner hit plates to deflect fork tines
- Four-way forklift entry for efficient handling on assembly lines and in warehouses or trucks
- Customization and identification options available, included molded logo areas ideal for tracking and inventory control
- Backed by a one-year limited warranty
- 100% recyclable HDPE
