## SPIRIT II

RTU, Germicidal Cleaner and Deodorant

PROD. #0679

### FEATURE/BENEFITS:

|                     |                                                                                                                                                               |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bactericidal        | Effective against <i>Staphylococcus aureus</i> , <i>Salmonella enterica</i> , <i>Pseudomonas aeruginosa</i> , and more                                        |
| Virucidal           | Kills HIV-1 (associated with AIDS), HBV (Hepatitis B Virus), Influenza A (Pandemic 2009 H1N1), Norovirus (Norwalk), Canine Parvovirus, Rabies Virus, and more |
| Fungicidal          | Kills <i>Trichophyton mentagrophytes</i> (Athlete's Foot Fungus) on pre-cleaned, non-porous, hard surfaces                                                    |
| Mildewstatic        | Controls mildew growth on pre-cleaned, hard, non-porous surfaces                                                                                              |
| EPA Registered      | Registered as a disinfectant with the EPA; see label for contact times and additional kill claims                                                             |
| Cleans              | Powerful detergent system quickly cuts through grease and heavy soil, to allow for easy wiping                                                                |
| Deodorizes          | Neutralizes many unpleasant odors at the source; leaves entire work area with a fresh, clean fragrance                                                        |
| Ready-to-Use        | No dilution required, no waste. Packaged in its own dispenser                                                                                                 |
| No Rinsing Required | Just spray on and then wipe off. No rinsing required, except on food-contact surfaces                                                                         |

### APPLICATIONS:

Disinfects pre-cleaned, hard, non-porous surfaces. Simply spray product onto surface, then wipe off with damp sponge or paper towel. After cleaning food contact surfaces, rinse with potable water before re-use. Particularly effective in: airport terminals, eating & drinking establishments, physicians, child day care services, hotels & motels, schools & education services, cleaning and maintenance services, nursing homes & hospitals, service stations, department stores, and sports & recreation clubs.
