The products that put food safety in your hands.

Solid hygiene & performance
Seamless injection molded tools from Remco deliver the ultimate in hygienic material handling. One-piece construction eliminates areas for bacteria to hide in and multiply, resulting in a durable tool that performs beautifully in even the most rigorous applications.

The best of both hygiene & efficiency
Hygiene-essential environments demand efficient and easy-to-use tools that maintain or advance hygienic standards. Vikan’s products are designed to improve the quality and reduce the cost of cleaning, while motivating hygienic behavior.

Global Scope. Local Support.
Remco, Vikan’s dedicated presence in North America, draws upon a combined wealth of knowledge and world-class manufacturing capabilities to provide even greater value to our customers – innovating new cleaning tools, increasing our industry-leading product availability and delivering unmatched levels of customer service.

Visit us on social media: remcoproducts.com/socialmedia.
Minimizing the risk of cross-contamination is key to maintaining a safe processing facility and is imperative for meeting today’s food safety guidelines. Changes with SQF Edition 8, BRC, and FSMA all require better methods of zoning, which can be easily and efficiently done with color-coding. Color-coding is a proven practice that effectively communicates hazards and helps food processors achieve high-quality food safety standards.

As a trusted supplier to leading food processors, Remco can work with you to develop a color-coding system that is customized to your facilities’ unique needs and products. Through the program development process, Remco will help you identify different processing zones or tasks. We will also help your workers understand and implement your color-coding plan. Color-coding is a helpful tool in maintaining HACCP compliance, as well as for preventing food safety and quality lapses before they happen. By design, most Remco and Vikan tools further contribute to effective color-coding plans with a wide range of total-color products.

Get the color-coding kit at remcoproducts.com/toolkit.
According to the Centers for Disease Control’s foodborne outbreak tracking & reporting, 48 million (about 1 in 6) people in the U.S. get sick each year from eating contaminated food. There are more than 250 pathogens and toxins that are known to cause foodborne illness. A number of these occurrences are considered preventable and an effective color-coding plan can help guard against these costly mistakes. To prevent cross-contamination from wreaking havoc throughout a facility, consider these tips for implementing a color-coding plan:

**1. Keep it Simple**

Avoid complicated color assignments and keep your system simple. Color-code only the most important areas or items used to control cross-contamination.

**2. Pick Logical Colors**

Ensure that the colors you select are easily recognized and understood by everyone involved. They should also be able to be spotted against product in case a tool is dropped.

**3. Make it Clear**

Reinforce your color assignments with consistent and appropriate signage. Provide clearly marked storage areas throughout your facility and grounds.

**4. Communicate the Program**

Have a communication strategy for rolling out the program to your employees. Revisit it regularly to ensure it’s working.

Remco welcomes the opportunity to work with your food safety and quality teams to ensure your color-coding system is a complete success.
Get Ready for a Hygiene Revolution
With Ultra Safe Technology

Vikan’s award-winning Ultra Safe Technology is a revolutionary line of brooms and brushes that help improve food safety and quality, minimize food waste, and increase cleaning efficiency.

**Optimized Bristle Patterns**
Each UST brush and broom features a purpose-designed, efficiency-boosting bristle pattern.

- **Hand Brush**
  Angled and circular arrangement for scrubbing and washing in a circular motion.

- **Broom / Deck scrub**
  Angled arrangement of the Bristle Security Units enabling more efficient cleaning.

- **Bench Brush**
  Bristles Security Units are arranged to enable the efficient and effective removal of fine powders and loose debris.

---

**Secure Bristles with Fully-Molded Design**

Bristles in traditional staple-set or resin-set tools start to loosen and detach with use. Once bristles begin to dislodge, the bundle loosens and more will fall out.

UST bristles are individually molded to the brush and don’t loosen over time.

- **3x** Bristle fixation is 3 times more consistent in UST brushes than in drilled & stapled ones.
- **52%** It takes 52% more force to loosen a UST bristle than the bristles on a traditional brush.
UST Tools Meet Hygienic Design Principles

Hygienic design principles are built into UST tools because even cleaning equipment can be a vector of contamination.

- Easy to clean and dry
- Durable and well-constructed
- Smooth surface finish (under 0.8μm)
- Absence of acute internal angles
- Made of food-safe materials
- Fully tested and documented

47% of cleaning equipment tests positive for listeria*

* Study conducted by Campden BRI

An extremely low surface roughness reduces the risk of contaminants sticking to the surface of the brush and makes it easier to clean.

Superior Cleanability

Vikan dramatically reduced the depth of the UST brush-head recess, making brushes easier to clean by eliminating drilled holes, metal staples, and resins.

Introducing 3 New Colors!

The additions of brown (66), lime (77), and gray (88) to the other nine colors Remco and Vikan offer give more options to production facilities that utilize color-coding as a safety measure. Color-coding can help prevent cross-contamination when used appropriately. The inclusion of these new colors gives a total of 12 unique colors to effectively begin or expand a color-coding plan.
What our new colors can do for you

- Lime is recommended for allergen control, while brown and gray are often used outside actual food production areas.

- Ideal for complex color-coding setups and large facilities with many zones and potential risks.

- New colors available for lots of tools and applications, enabling complete coverage in lime, brown, and gray zones.
New Products

Vikan 1” Pastry/Detail Brush - 555230x
Available in 5 colors

Features
» FDA compliant
» Dual purpose
» Total color
» Available in 5 colors

The thin and soft bristles easily apply marinades, eggs, or icing to products. The narrow size also makes this brush excellent at detail cleaning.

Vikan 2” Pastry/Detail Brush - 555250x
Available in 5 colors

Features
» FDA compliant
» Dual purpose
» Total color
» Available in 5 colors

The slightly wider pastry/detail brush is still a great choice for cleaning in narrow spaces, and can make faster work of marinating meats or applying washes or icing to baked goods.

Vikan 3” Pastry/Detail Brush - 555270x
Available in 5 colors

Features
» FDA compliant
» Dual purpose
» Total color
» Available in 5 colors

Thin, soft bristles allows this wider version of the pastry/detail brush to clean more efficiently while still being gentle enough to work with pastries.

Remco Lobby Dustpan Set - 6250x
Available in 9 colors

Features
» FDA compliant
» Available in 9 colors
» Locking pan lid
» Matching broom & dustpan
» Durable

This set includes a dustpan and upright broom. The dustpan has no hard angles that could trap food residue or bacteria, and it can be easily disassembled and reassembled for regular washing and sanitizing. The large, 7” by 14” bin allows for big and small cleanup jobs. The tall 37” handles prevent back pain that stems from leaning over shorter dustpans and brooms.
New Products

3 New Colors Available - Brown, Lime, and Gray
35 products now include 3 new colors

These three additional colors give facilities even more options. These tools run the gamut from our most popular shovels and brushes to specialty pieces like our wall brackets and tank brushes. Brown and gray are subtle colors that are ideal for use in high-visibility areas such as hallways and corridors. Brown is also a good replacement for wooden products. Because it’s so visually distinct, lime is being used by many facilities as a part of their allergen control plans. Visit remcoproducts.com/colors for more details.

Vikan Flexible Hand Scraper - 4051x
Available in 5 colors

Our flexible scraper is suitable for cleaning work benches and conveyor belts, as well as emptying containers and buckets. It has a scraping edge on three sides.

Features
» FDA compliant
» Available in 5 colors
» Flexible
» Durable
» One-piece construction

Vikan Nylon Scraper with Threaded Handle - 4012x
Available in 5 colors

Loosen stubborn dirt like pastry, chocolate, burnt-on food, and more with this scraper. The nylon blade is a good alternative to a stainless steel blade and can be used on sensitive surfaces to avoid scratching equipment or conveyor belts. The hard blade can withstand hot surfaces when used at a maximum of 2-minute intervals. Can be used with any Vikan handle.

Features
» FDA compliant
» Threaded handle
» Available in 5 colors
» Durable
» Gentle on sensitive surfaces
» Fully tested and documented

Vikan Split Bristle Angle Head Broom - 2916x
Available in 6 colors

The split bristle angle head broom is designed to handle fine particles like dust, flour, and powdered sugar. The soft/split bristles gently sweep away these powders without leaving residues. The broom head, made of FDA-compliant materials, comes in six colors, making it a great addition to any color-coded food safety or sanitation plan.

Features
» FDA compliant
» Available in 6 colors
» Good on fine particles
» Use with any Vikan handle
» Durable
Durability and Dependability
With Top Dog Reusable Garments

Remco is the new exclusive U.S. distributor of Top Dog’s reusable color-coded garments. The Top Dog line supports color-coding programs by providing an additional level of visual verification which helps ensure the right people are working in specified zones.

Features of Top Dog garments:
• Food safe (FDA-compliant)
• Reusable for 3 months or more, depending on application
• Waterproof
• Virtually non-stick and non-staining
• Resistant to chemical and acid sanitation products
• Non-porous surface – will not host bacteria or mold
• Recyclable
• Washer and dryer safe
• Will not crack or stiffen in low temperatures or with repeated cleaning
• Impervious to animal fats and degreasers
• Completely latex-free for sensitive users
• Easily repairable
• Very high abrasion resistance

6 Mil Die Cut Apron w/ 45” Length
8001x
Colors Available:
Length: Thickness:
45” 6 mil
Weight: 0.4 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 36 units

6 Mil Die Cut Apron w/ 50” Length
8002x
Colors Available:
Length: Thickness:
50” 6 mil
Weight: 0.45 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 36 units

6 Mil Die Cut Apron w/ 45” Length
8101x
Colors Available:
Length: Thickness:
45” 6 mil
Weight: 0.4 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 24 units

8 Mil Die Cut Apron w/ 50” Length
8102x
Colors Available:
Length: Thickness:
50” 8 mil
Weight: 0.6 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 24 units

8 Mil Die Cut Apron w/ 45” Length
8001x
Colors Available:
Length: Thickness:
45” 8 mil
Weight: 0.55 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 36 units

6 Mil Die Cut Apron w/ 45” Length
8002x
Colors Available:
Length: Thickness:
45” 6 mil
Weight: 0.4 lbs.
Maximum Temperature: 180°F
Material: Polyurethane
Case Quantity: 24 units
Reusable Food-Safe Garments

These products are durable and hygienic, making them an excellent complement to Remco’s cleaning and material handling tools. The total-color garments provide protection to the wearer and are easy on the environment because they are reusable. Depending on applications, garments may last 3 months or more. These garments are made from an ether-based polyurethane film, making them ideal for the food and beverage industry.

Top Dog garments ship in full cases only.

Additional sizes, colors, and styles are available upon request.
In food processing environments, material handling tools must be purpose-built for the task. Due to their nature, these tools come into direct contact with food products. The material handling tools in your facility should improve your food safety efforts—not create a potential risk of contamination.

Material handling tools from Remco and Vikan are carefully designed and produced from materials that comply with regulatory standards. Any tool that contacts food should be backed by the appropriate documentation to support a written food safety plan, which we can provide to all our customers.

But why stop at satisfying the requirements? Our superior lines are ergonomically built, eliminating excessive stress and strain on the user. This improves the productivity of your workforce and ultimately your overall operation.
Material Handling Product Selection Guide

Remco and Vikan offer a range of scraping, material measuring, and material transporting tools to meet the varying demands of food processors.

Choose the material handling option that best fits the application:

- **Shovels** — Composed solely of FDA-compliant polypropylene, our shovels are hygienic and durable. They also have the added benefits of being total color, fully molded, and non-sparking, making them a top choice in the food industry.

- **Scoops** — Remco scoops are durable and hygienically designed with smooth edges for easy cleaning.

- **Dustpans** — From our award-winning lobby dustpan and broom set to Vikan’s hygienic dustpan, we can help keep floors clean of debris.

- **Buckets** — Vikan buckets make transporting and storing bulk ingredients a snap. Good for handling up to 5 gallons of materials or liquids.

- **Tubs** — Remco tubs and undercarriages come in a variety of sizes and shapes to fit your needs. From adding lids to customizable plugs, we have the tubs that will help you move and store products. Best option for moving contents of up to or about 100 gallons.

Choose the blade material that best fits your specific needs:

- **Stainless Steel Blade** — These blades are good for removing stubborn or burnt-on foodstuff from smooth surfaces. Certain stainless steel scrapers may be mounted on handles to provide greater reach.

- **Polypropylene Blade** — Plastic blades provide a durable scraping option that won’t damage surfaces. Hand scrapers, bench scrapers, and paddle scrapers are available in standard polypropylene and metal detectable polypropylene.

- **Nylon Blade** — Rigid and durable, nylon scrapers provide a good option where scrapers are required in high-temperature situations. Certain nylon tools require handles for proper use.

Choose the measurement tool that best fits your specific needs:

- **Bowl Scoops** — Vikan bowl scoops include measurement marks in liters, fluid ounces (U.S.), and fluid ounces (U.K.). These scoops are often used in dairy and baking applications and are ideal for keeping allergens separated. They pair perfectly with Vikan buckets, allowing for precise measuring and mixing.

- **Mega Scoops/Dippers** — These scoops include measurement markings in liters on one side and quarts on the other. Commonly used in conjunction with Remco tubs, these scoops can move large, yet precise amounts of material efficiently.

- **Buckets** — With measurement marks in liters, gallons (U.S.), and gallons (U.K.), these Vikan buckets are well suited for measuring, transporting, or storing bulk ingredients. These buckets are often used in dairy and baking applications.
These tools are a cost-effective alternative to stainless steel and are ergonomically designed to reduce stress on the user’s back. Durable and lightweight, plastic tools won’t damage equipment like metal tools can.
Fork and Rake

Hygienically designed fork and rake are ideally suited for moving bulk food material.

Hygienic Fork
56905
Colors Available: White
Length: 49” Width: 9.2” Depth: 5.1”
Weight: 3.18 lbs.
Maximum Temperature: 250°F
Material: Polypropylene

Hygienic Rake
56915
Colors Available: White
Length: 7.9” Width: 8” Height: 8.9”
Weight: 0.91 lbs.
Maximum Temperature: 250°F
Material: Polypropylene

Paddles

These paddles can reach into deep vats to help combine ingredients.

40” Mixing Paddle
6775x
Colors Available: 
Length: 39.75” Width: 6” Thickness: 1.4”
Weight: 2.19 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene

52” Mixing Paddle w/ Holes
6776x
Colors Available: 
Length: 51.8” Width: 5.9” Thickness: 1.4”
Weight: 2.64 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene

40” Mixing Paddle w/ Holes
6774x
Colors Available: 
Length: 39.75” Width: 6” Thickness: 1.3”
Weight: 2.11 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene

52” Mixing Paddle
6777x
Colors Available: 
Length: 51.8” Width: 5.9” Thickness: 1.4”
Weight: 2.66 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene
Durable, total-color dustpans have become a staple in many color-coded sanitation programs.
## Hand Scoops

*Color-coded scoops are useful in preventing cross-contact between allergens and supporting HACCP plans and regulatory food safety efforts.*

Recommended handles for use with the Remco Mega Scoop Dipper:
- 2935x - 51” Color-Coded Aluminum Handle
- 2945 - 51” Light-Duty Aluminum Handle
- 2959x - Color-Coded Full Aluminum Handle

For more handle options, see page 48 or visit Remco’s website at remcoproducts.com
Scraping tools from Remco offer solutions for a variety of bench top, food prep, and floor applications. These tools are ideal when you need a hygienic option for effectively moving materials, and they are rigid enough to perform without bending or breaking.

**Remco Food Hoe 2900x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Length: 11.25"
- Thickness: 2"
- Height: 8"
- Weight: 1.13 lbs.
- Deflection / Softening Temps: 410°F / 419°F
- Material: Nylon

**Stainless Steel Floor Scraper 2910x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Length: 10.25"
- Thickness: 1.25"
- Height: 6.9"
- Weight: 0.56 lbs.
- Maximum Temperature: 250°F
- Material: Polypropylene / Stainless Steel

**Remco Nylon Floor Scraper 2911x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Length: 10.25"
- Thickness: 1"
- Height: 6.9"
- Weight: 0.65 lbs.
- Deflection / Softening Temps: 410°F / 419°F
- Material: Nylon

**2” Stainless Steel Handle Mounted Scraper 4010x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Height: 8.07"
- Width: 1.97"
- Thickness: 1.26"
- Weight: 0.18 lbs.
- Maximum Temperature: 392°F
- Material: Polypropylene / Stainless Steel

**4” Stainless Steel Handle Mounted Scraper 4011x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Height: 8.07"
- Width: 3.94"
- Thickness: 1.26"
- Weight: 0.2 lbs.
- Maximum Temperature: 392°F
- Material: Polypropylene / Stainless Steel

**Nylon Scraper with Threaded Handle 4012x**
- Colors Available: 1 2 3 4 5 6 7 8 9
- Height: 8.07"
- Width: 3.94"
- Thickness: 1.26"
- Weight: 0.15 lbs.

**8" Bench Scraper**

6960x

Colors Available: 

Thickness: Width: Height: 
0.9" 8.3" 5.2"

Weight: 0.29 lbs.

Deflection / Softening Temps: 183°F / 266°F

Material: Polypropylene

---

**4" High Temperature Scraper**

6963

Colors Available: Blue

Thickness: Width: Height: 
0.88" 4.25" 9.38"

Weight: 0.25 lbs.

Deflection / Softening Temps: 424°F / 392°F

Material: Nylon / Fiberglass

---

Recommended handles for use with Remco and Vikan scrapers:

- 2937x - 59" Aluminum Handle
- 2939x - 59" Stainless Steel Handle
- 2962x - 59" Ultra Hygiene Handle

For more handle options, see page 48 or visit Remco’s website at remcoproducts.com
Protect your tools and keep your area neat with color-coded wall brackets from Vikan. Properly hanging your tools prolongs the life of your equipment. Most brackets are extendable when mounted adjacently and can accommodate nearly any product.
Buckets from Vikan are ideal for moving, measuring, and mixing bulk materials, and are color-coded to assist in the prevention of cross-contamination.

- **3 Gallon Bucket**
  - Colors Available: Various colors
  - Length: 12.81”
  - Width: 12.88”
  - Height: 12.7”
  - Weight: 2.18 lbs.
  - Maximum Temperature: 250°F
  - Material: Polypropylene/Stainless Steel

- **1.5 Gallon Bucket**
  - Colors Available: Various colors
  - Length: 11.3”
  - Width: 9.75”
  - Height: 0.5”
  - Weight: 0.28 lbs.
  - Maximum Temperature: 250°F
  - Material: Polypropylene

- **3 Gallon Bucket Lid**
  - Colors Available: Various colors
  - Length: 14”
  - Width: 12.38”
  - Height: 1”
  - Weight: 0.49 lbs.
  - Maximum Temperature: 250°F
  - Material: Polypropylene

- **1.5 Gallon Bucket Lid**
  - Colors Available: Various colors
  - Length: 14.37”
  - Width: 12.2”
  - Height: 1.6”
  - Weight: 1 lb.
  - Maximum Temperature: 250°F
  - Material: Polypropylene

- **5 Gallon Bucket**
  - Colors Available: Various colors
  - Length: 15”
  - Width: 18.5”
  - Height: 18.5”
  - Weight: 4.37 lbs.
  - Maximum Temperature: 250°F
  - Material: Polypropylene/Stainless Steel

- **5 Gallon Bucket Lid**
  - Colors Available: Various colors
  - Length: 14.37”
  - Width: 12.2”
  - Height: 1.6”
  - Weight: 1 lb.
  - Maximum Temperature: 250°F
  - Material: Polypropylene
**Metal Detectable**

Produced with a specially formulated FDA-compliant polypropylene resin, our tools can be identified by standard metal detection equipment. They are a great alternative to stainless steel.

- **32 oz. Metal Detectable Hand Scoop**
  - **Model:** 6400MDx
  - **Colors Available:**
  - **Length:** 11.5"
  - **Width:** 4.3"
  - **Height:** 3"
  - **Weight:** 0.53 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

- **82 oz. Metal Detectable Hand Scoop**
  - **Model:** 6500MDx
  - **Colors Available:**
  - **Length:** 15.1"
  - **Width:** 5.9"
  - **Height:** 3.3"
  - **Weight:** 0.87 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

- **52” Metal Detectable Mixing Paddle**
  - **Model:** 6777MDx
  - **Colors Available:**
  - **Length:** 51.7"
  - **Width:** 6"
  - **Thickness:** 1.4"
  - **Weight:** 3.63 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

- **5” Metal Detectable Mini Bench Scraper**
  - **Model:** 6959MDx
  - **Colors Available:**
  - **Thickness:** 0.3"
  - **Width:** 5.25"
  - **Height:** 3.4"
  - **Weight:** 0.12 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

- **8” Metal Detectable Bench Scraper**
  - **Model:** 6960MDx
  - **Colors Available:**
  - **Thickness:** 0.9"
  - **Width:** 8.3"
  - **Height:** 5.2"
  - **Weight:** 0.39 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

- **3” Metal Detectable Scraper**
  - **Model:** 6961MDx
  - **Colors Available:**
  - **Thickness:** 0.75"
  - **Width:** 3"
  - **Height:** 7.88"
  - **Weight:** 0.15 lbs.
  - **Deflection / Softening Temps:** 183°F / 266°F
  - **Material:** Polypropylene/Semi-Ferrous Additive

Colors of metal detectable products differ from other products due to semi-ferrous additive.
4" Metal Detectable Scraper
6962MDx

Colors Available:
Thickness: Width: Height:
0.82" 4.25" 9.19"
Weight: 0.25 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Semi-Ferrous Additive

One-Piece Metal Detectable Shovel w/ 10" Blade
6981MDx

Colors Available:
Length: Width: Depth:
37.5" 10.2" 5.9"
Weight: 3.53 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Semi-Ferrous Additive

One-Piece Metal Detectable Shovel w/ 14" Blade
6982MDx

Colors Available:
Length: Width: Depth:
42.5" 13.75" 6.6"
Weight: 5.49 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Semi-Ferrous Additive

Metal Detectable Test Kit
MDTK

Colors Available: Blue
Length: Height: Thickness:
4.3" 1.9" 0.5"
Weight: 0.03 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Semi-Ferrous Additive

The Metal Detectable Test Kit is available to allow testing for detectability with specific equipment. Many variables contribute to detectability. Please call Remco for guidance in testing with your system.

Colors of metal detectable products differ from other products due to semi-ferrous additive.
Remco tubs are designed for bulk material handling jobs that require containers made of FDA-compliant materials. Constructed with high-density polyethylene, they can be used for transporting, freezing, and storing.

Weight: 25.50 lbs.

Deflection/Softening Temps: 173°F to 258°F

Material: Polyethylene
Maintaining a sanitary environment is an absolute necessity in a food processing facility, but production time is also an important focus. The ideal sanitation program integrates efficacy and efficiency. Compromise is never an option when it comes to keeping consumers safe from contamination.

For over 120 years, Vikan has focused on developing the most hygienic and effective cleaning tools in the world. With Vikan’s product development emphasis on efficiency, functionality, and ergonomics, sanitation professionals have access to tools that are precisely suited for the most complex cleaning tasks.

With Remco’s local support, your facility is afforded the ability to meet and exceed the highest food safety and quality standards in the industry—protecting the safety of your food products and the integrity of your brand.
Cleaning Tools
Product Selection Guide

Remco Products and Vikan offer a range of brush styles, squeegee blades, and handle types to meet the varying demands of food processors.

Choose the brush that best fits the application:

- **Soft** — Ideal for sweeping dry, fine particles like flour and sugar.
- **Medium** — Can be used for wet or dry applications; great for sweeping larger food particles, such as peelings.
- **Stiff** — Perfect for scrubbing difficult dirt and for wet use with cleaning agents.
- **Soft/Stiff Combo** — The best of both worlds, offering stiff bristles that loosen stubborn dirt and soft bristles that sweep away fine particles.
- **Soft/Split** — Split bristle fibers hold more water and cleaning agent to achieve a maximum washing effect.

Choose the blade that best fits the application:

- **Single Blade Ultra Hygiene** — Zero seams or cracks for bacteria to hide in, providing the highest level of hygiene. The hygienic design has smooth, rounded surfaces with elongated ends to protect the rubber blade and guard against splashes.
- **Double Blade Ultra Hygiene** — Efficient in areas such as large food production facilities, it collects every particle with flexible non-porous rubber blades. These squeegees feature replaceable rubber cassettes designed to move liquids and debris on tiled, uneven surfaces.
- **Double Blade Foam Rubber** — The neoprene rubber blades make this squeegee the most effective at moving large amounts of liquid on smooth and tiled surfaces. The soft black blade is intended for use on floors only and is not FDA-compliant.

Choose the handle that best fits the application:

- **Ultra Hygiene** — Composed solely of FDA-compliant polypropylene, this handle is uniquely hygienic and durable in its construction. It also boasts the added benefit of being total color, making it an excellent choice for inclusion in a color-coding system.
- **Stainless Steel** — Stainless steel handles stand up to the most aggressive chemicals, making them a great choice for environments where chemical resistance is critical.
- **Aluminum** — Aluminum handles are a solid option in any hygiene-sensitive environment. Aluminum provides a cost-effective and reliable solution to a facility's needs.
- **Fiberglass** — Fiberglass handles are scheduled to phase out in 2020. Remco strongly recommends transitioning to total-color Ultra Hygiene handles. Please contact us for more details.
Sweeping Brooms

Vikan sweeping brooms are designed for environments where hygiene and efficiency are essential.

12" Angle Broom 2914x
Colors Available: Length: Width: Height:

- Maximum Temperature: 250°F
- Material: Polyamide/Stainless Steel/Polypropylene

**Ø0.5” Tube Brush for Flex Rod**
- **5354x**
- Colors Available: White
- Length: 7.9”
- Diameter: 0.4”
- Weight: 0.04 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Stainless Steel Flex Rod Handle**
- **53515**
- Colors Available: White/Steel
- Length: 30.3”
- Diameter: 0.2”
- Weight: 0.27 lbs.
- Maximum Temperature: 250°F
- Material: Polypropylene/Stainless Steel

**Ø2.4” Tube Brush for Flex Rod**
- **5356x**
- Colors Available: White/Steel
- Length: 7.1”
- Diameter: 2.3”
- Weight: 0.1 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Long Stainless Steel Flex Rod Handle**
- **5350**
- Colors Available: White/Steel
- Length: 61.4”
- Diameter: 1”
- Weight: 0.50 lbs.
- Maximum Temperature: 250°F
- Material: Polypropylene/Stainless Steel

**Stainless Steel Flex Rod Handle**
- **53551**
- Colors Available: White/Steel
- Length: 30.8”
- Diameter: 1.1”
- Weight: 0.23 lbs.
- Maximum Temperature: 250°F
- Material: Polypropylene/Stainless Steel

These tube brushes are compatible with:
- 53515 - Metal Flexible Brush Handle
- 5346 - Metal Flexible Brush Handle Extension
- 5350 - Long Metal Flexible Brush Handle
- 53525 - Long Nylon Flexible Brush Handle
**Ø0.6” Drain Cleaning Brush**
5360x

- Colors Available: 🌈
- Length: 7.9”
- Diameter: 0.6”
- Weight: 0.09 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Ø0.8” Tube Brush for Flex Rod**
5365x

- Colors Available: 🌈
- Length: 7.9”
- Diameter: 0.8”
- Weight: 0.07 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Ø1.6” Tube Brush for Flex Rod**
5368x

- Colors Available: 🌈
- Length: 19.9”
- Diameter: 1.6”
- Weight: 0.15 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Ø0.4” Tube Brush**
5375x

- Colors Available: 🌈
- Length: 19.9”
- Diameter: 0.4”
- Weight: 0.15 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Ø0.9” Tube Brush**
5376x

- Colors Available: 🌈
- Length: 19.9”
- Diameter: 0.9”
- Weight: 0.15 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel/Polypropylene

**Ø1.5” Tube Brush**
5378x

- Colors Available: 🌈
- Length: 19.9”
- Diameter: 1.5”
- Weight: 0.17 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel/Polypropylene

**Ø2” Tube Brush**
5379x

- Colors Available: 🌈
- Length: 20.1”
- Diameter: 2”
- Weight: 0.19 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel/Polypropylene

**Ø2.4” Tube Brush**
5370x

- Colors Available: 🌈
- Length: 19.4”
- Diameter: 2.5”
- Weight: 0.2 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel/Polypropylene

**Ø0.8” Tube Brush for Flex Rod**
5365x

- Colors Available: 🌈
- Length: 7.9”
- Diameter: 0.8”
- Weight: 0.07 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel

**Ø0.9” Tube Brush**
5376x

- Colors Available: 🌈
- Length: 19.9”
- Diameter: 0.9”
- Weight: 0.15 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel/Polypropylene

**Ø1.5” Pipe Brush for Flex Rod**
5391x

- Colors Available: 🌈
- Length: 7.7”
- Diameter: 3.5”
- Weight: 0.15 lbs.
- Maximum Temperature: 250°F
- Material: Polyester/Stainless Steel
When narrow spaces make cleaning a challenge, Vikan tube and valve brushes can help. These products are well-suited for cleaning drains and other equipment in areas where accessibility may be difficult.

Ultra Hygiene squeegees are perfect for food contact surfaces, while foam blade squeegees powerfully tackle floors and drains. Replacement blades are available for foam blade and double blade Ultra Hygiene squeegees. See page 47 for replacement blade options.
28” Single Blade Ultra Hygiene Squeegee 7170x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 27.2” Width: 3.1” Height: 3.9”
Weight: 0.86 lbs.
Maximum Temperature: 250°F
Material: Polypropylene/Rubber

20” Double Blade Ultra Hygiene Squeegee 7713x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 19.75” Width: 3” Height: 4”
Weight: 0.72 lbs.
Maximum Temperature: 250°F
Material: Polypropylene/Rubber

24” Double Blade Ultra Hygiene Squeegee 7714x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 23.6” Width: 3.7” Height: 4.3”
Weight: 0.84 lbs.
Maximum Temperature: 250°F
Material: Polypropylene/Rubber

28” Double Blade Ultra Hygiene Squeegee 7715x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 27.6” Width: 3.2” Height: 4.3”
Weight: 0.88 lbs.
Maximum Temperature: 250°F
Material: Polypropylene/Rubber

16” Foam Blade Squeegee 7752x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 15.75” Width: 3.5” Height: 3.75”
Weight: 0.53 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

20” Foam Blade Squeegee 7753x††

Colors Available: Red, Blue, Green, Yellow, Black
Length: 19.75” Width: 3” Height: 4”
Weight: 0.64 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

24” Foam Blade Squeegee 7754x††

Colors Available: Red, Blue, Green, Yellow, Black
Length: 23.6” Width: 3.7” Height: 4.3”
Weight: 0.75 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

28” Foam Blade Squeegee 7755x††

Colors Available: Red, Blue, Green, Yellow, Black
Length: 27.5” Width: 3.5” Height: 3.75”
Weight: 0.85 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

20” Swivel Neck Foam Blade Squeegee 7763x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 19.7” Width: 3.9” Height: 4.5”
Weight: 0.73 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

24” Swivel Neck Foam Blade Squeegee 7764x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 23.6” Width: 4.3” Height: 4.5”
Weight: 0.79 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

28” Swivel Neck Foam Blade Squeegee 7765x

Colors Available: Red, Blue, Green, Yellow, Black
Length: 27.6” Width: 3.9” Height: 3”
Weight: 0.95 lbs.
Maximum Temperature: 199°F
Material: Polypropylene/Foam Rubber

†† Black foam blades are not FDA compliant.
Squeegees

Replacement blades are available for Double Blade Ultra Hygiene and Foam Blade squeegees. See page 47 for replacement blade options.

When condensation forms in high places, you can efficiently remove it with this unique ceiling squeegee. Vikan bench squeegees are perfect for a variety of countertop applications.

10" Single Blade Ultra Hygiene Bench Squeegee 7125x†
Colors Available: 
Length: 9.4" Width: 3.5" Height: 3.4"
Weight: 0.45 lbs. Maximum Temperature: 250°F
Material: Polypropylene/Rubber

10" Double Blade Ultra Hygiene Squeegee 7711x†
Colors Available: 
Length: 9.8" Width: 3.3" Height: 3.9"
Weight: 0.48 lbs. Maximum Temperature: 250°F
Material: Polypropylene/Rubber

16" Condensation Squeegee 7716x
Colors Available: 
Length: 15.6" Width: 4.7" Height: 3.1"
Weight: 0.6 lbs. Maximum Temperature: 250°F
Material: Polypropylene/TPE Rubber

†Bench squeegees include a 6.5" handle, but may be used with other handles purchased separately.
24" Foam Blade Refill Cartridge for 7714x or 7774x

Ideally suited for many kinds of cleaning projects, the waterfed system puts water where you need it. The heavy-duty water gun controls water consumption and is designed for rinsing chemicals off after scrubbing processes.
The following quick connect products require our Automatic Shut Off Coupling to connect with a standard US ¾” hose:

- 7056Qx - Waterfed Handbrush
- 9324x - Heavy-Duty Water Gun
- 2973Qx - Waterfed Telescopic Handle
- 2991Qx - Waterfed Ergonomic Handle
Pad Holder System

Vikan’s pad holder system uses stainless steel locking hooks to secure the pad firmly in place for cleaning difficult angles and areas. Pads are an excellent option for cleaning surfaces like floors and walls.

**Remco Scrub Pad - Coarse**
- 5523
- Colors Available: Brown

Floors and drains are key components of any food processing sanitation program, and Remco and Vikan’s vast selection of black tools can get the job done while being easily distinguishable from food contact tools. With Remco’s durable and functional product lines, sanitation professionals have access to tools that are precisely suited for the most complex floor and drain cleaning tasks.
Whether it’s a remote space adjacent to a food production area or an industrial production facility, areas not requiring ultimate hygiene still demand safe and durable tools. Remco offers a variety of tough, non-sparking, and chemically-resistant products that serve as economical facility maintenance and safety solutions.

Some environments necessitate the use of tools that are compatible with sensitive materials or hazardous substances. When metal is not the right option for the job, rugged plastic tools may fit the bill. Lightweight, injection-molded polypropylene tools can be the right choice.

Partner with Remco for a comprehensive solution to maintain the condition and integrity of both hygienic and remote areas. Efficiency and cost control is possible with total facility maintenance, and all of the necessary tools should be integrated in your overall cleaning and sanitation plan.
Product Selection Guide
Remco offers a range of safety shovels and hazmat tools to fit the needs of industrial end-users.

Choose the safety shovel to fit the application:

- **Collapsible** — Safety shovels can easily fit in vehicles, hazmat kits, and small areas for when they’re needed.

- **Regrind** — An environmentally friendly choice, regrind shovels are strong and durable. The regrind shovel is available with 10” and 14” blade widths and multiple handle lengths.

- **10” Blade** — Shovels with this blade are big enough to get small and medium jobs done properly.

- **14” Blade** — Ideal for moving large amounts of materials, 14” blade shovels can make quick work of big jobs.

Choose the hazmat tool to fit the application:

- **Curved Squeegee** — Disposable head is curved to easily and quickly corral liquid and prevent it from spreading across a floor.

- **8” Straight-Blade Squeegee** — Easy to fit into a hazmat kit, this disposable blade is ideal for small chemical spills.

- **12-18” Straight-Blade Squeegees** — Our standard-sized squeegee heads help clean up any hazmat spills and can be easily stored in a hazmat kit.

- **24-30” Straight-Blade Squeegees** — The widest hazmat squeegees we offer are designed to tackle the largest spills efficiently, and are disposable when the job is done.

Choose the handle that best fits the application:

- **12-36” Hazmat Handles** — When you need a size- and cost-efficient handle for small clean-up jobs, these handles pair well with any of our hazmat tools.

- **53-61” Hazmat Handles** — Medium handles give operators the ability to easily and efficiently clean spills on floors, in between machinery, and off of walls.

- **72-80” Hazmat Handles** — Long hazmat handles keep employees at a safe distance from spills and allow them to reach from high on walls down to in between machines.

- **Telescopic Hazmat Handles** — Whether cleaning spills off of high tanks or in between machinery, telescoping handles have the flexibility to take care of a variety of hazmat situations.
Injection-molded shovels are ideal for safe material handling in environments that require non-metallic tools. These tools are cost-effective, durable, lightweight, and won’t damage equipment like metals tools can.

**Remco**

**Dual Thread Adapter**
6200
- Colors Available: White
- Length: 5.4”
- Weight: 0.13 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene

**Remco**

**Collapsible Emergency Blade Shovel**
6880EB
- Colors Available: White
- Length: 36.5”
- Weight: 1.77 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene

**Remco**

**Pan Safety Shovel w/ 10” Blade Handle Cap**
6895SS
- Colors: Green and Black
- Length: 20.9”
- Weight: 1.5 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene

**Remco**

**Safety Shovel w/ 10” Blade Standard Handle**
6892SS
- Colors: Green and Black
- Length: 39”
- Weight: 2.5 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene/Steel

**Remco**

**Safety Shovel w/ 10” Blade Extended Handle**
6896BKSS
- Colors: Black
- Length: 44.1”
- Weight: 3 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene/Steel

**Remco**

**Safety Shovel w/ 10” Blade Extended Handle**
6896SS
- Colors: Green and Black
- Length: 43.7”
- Weight: 3 lbs.
- Deflection / Softening Temps: 183°F / 266°F
- Material: Polypropylene/Steel
Industrial & Safety Shovels

**Remco**  Safety Shovel w/ 14” Blade- Short Handle 6987SS

Colors: Green and Black
Length: 35.4”  Width: 14”  Depth: 6.7”
Weight: 3 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene

**Remco**  Safety Shovel w/ 10” Blade- Short Handle 6988SS

Colors: Green and Black
Length: 33.1”  Width: 10.4”  Depth: 5.9”
Weight: 2.5 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene

**Remco**  Safety Shovel w/ 14” Blade- Standard Handle 6900SS

Colors: Green and Black
Length: 40.9”  Width: 13.8”  Depth: 7.1”
Weight: 3.5 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Steel

**Remco**  One-Piece Regrind Shovel w/ 10” Blade 6981RG

Colors: Gray
Length: 37.5”  Width: 10.2”  Depth: 5.9”
Weight: 2.5 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene Regrind Material

**Remco**  One-Piece Regrind Shovel w/ 14” Blade 6982RG

Colors: Gray
Length: 42.5”  Width: 13.75”  Depth: 6.6”
Weight: 3.5 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene Regrind Material

**Remco**  Safety Shovel w/ 14” Blade- Extended Handle 6985SS

Colors: Green and Black
Length: 46.1”  Width: 13.8”  Depth: 7.9”
Weight: 4 lbs.
Deflection / Softening Temps: 183°F / 266°F
Material: Polypropylene/Steel
Remco's hazmat tools provide an economical solution when spills happen. They help you contain hazardous liquids and clean large volumes quickly.

**Remco**

12” Hazmat Handle 6012

Colors Available: White
Length: 12”
Diameter: 1”
Weight: 0.34 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

24” Hazmat Handle 6024

Colors Available: White
Length: 24”
Diameter: 1”
Weight: 0.59 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

36” Hazmat Handle 6036

Colors Available: White
Length: 36.1”
Diameter: 1”
Weight: 0.84 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass
53" Hazmat Handle
6053

Colors Available: White
Length: 53"
Diameter: 1"
Weight: 1.15 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

61" Hazmat Handle
6061

Colors Available: White
Length: 60"
Diameter: 1"
Weight: 1.35 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

72" Hazmat Handle
6072

Colors Available: White
Length: 72"
Diameter: 1"
Weight: 1.61 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

80" Hazmat Handle
6080

Colors Available: White
Length: 79.9"
Diameter: 1"
Weight: 1.76 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

29" - 46" Compact Telescopic Hazmat Handle
6228

Colors Available: White
Length: 26.5" - 46.3"
Diameter: 1.26"
Weight: 1.25 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

102" - 133" Telescopic Hazmat Handle
6264

Colors Available: White
Length: 102.4" - 132.5"
Diameter: 1.26"
Weight: 4.34 lbs.
Deflection/Softening Temps: 160°F / 392°F
Material: Fiberglass

8" Disposable Hazmat Squeegee
6530

Colors Available: White
Length: 27.5"
Width: 3.75"
Depth: 5.9"
Weight: 1.49 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

8" Disposable Hazmat Squeegee
6608

Colors Available: White
Length: 8"
Width: 5.5"
Depth: 2.2"
Weight: 0.49 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

12" Disposable Hazmat Squeegee
6612

Colors Available: White
Length: 12"
Width: 4.3"
Depth: 2.8"
Weight: 0.7 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

18" Disposable Hazmat Squeegee
6618

Colors Available: White
Length: 17.5"
Width: 5.5"
Depth: 2.4"
Weight: 1 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

24" Disposable Hazmat Squeegee
6624

Colors Available: White
Length: 24"
Width: 5.6"
Depth: 2"
Weight: 1.3 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

30" Disposable Hazmat Squeegee
6630

Colors Available: White
Length: 30"
Width: 5.6"
Depth: 2"
Weight: 1.55 lbs.
Deflection/Softening Temps: 165°F / 257°F
Material: Polyethylene/Stainless Steel

2017 Process Expo Innovations Winner
At Remco, we know that the decision to implement color-coding or to switch to hygienic design isn’t made in a single moment, but rather through a series of discussions, trainings, and learned practices. We’re here to help every step of the way with detailed white papers written by experts, short and practical blogs, and on-site training and support from our business development managers.

**Blogs and Social Media:**
Please visit remcoproducts.com/blog to view our blog articles. We cover topics like handwashing procedures, color-coding, 5S, FDA rulings, and solving common cleaning challenges. Follow us on social media for up-to-date food safety and hygienic design news. You can find our social media channels by visiting remcoproducts.com/socialmedia.

**Site Visits:**
Our business development managers are happy to visit your facility and offer suggestions for implementing color-coding and/or switching to more hygienic products. They can recommend different zoning techniques they believe will work best for you based on Remco and Vikan’s years of experience. To schedule a site visit, please contact our customer service at: cs@remcoproducts.com.

**Educational and Technical Resources**
Contact our educational and technical resources manager for food safety training information and guidance on best practices. You can also post questions about regulations, certifications, and compliance and be reassured you’re getting the best, most up-to-date information possible. Email edtech@remcoproducts.com.

**Documents of Compliance:**
Food contact surfaces like cleaning and material handling tools must comply with the FDA’s rules about what they can contain and how they must be designed. Documents of compliance show that tools fall within these parameters. Remco is happy to provide these documents for your records or in preparation for an audit at your request. Contact cs@remcoproducts.com.

**Available White Papers:**
- HACCP vs. HARPC
- Cleaning Tool Maintenance
- The Hygienic Design of Food Industry Brushware
- Understanding GMPs in Food Processing
- HACCP Planning for Food Safety
- Making the Decision to Apply Color-Coding
- Selection, Care, and Maintenance Guide for Food Contact Tools and Equipment

Please visit remcoproducts.com/knowledge-center to view and download any of our white papers.
