

POLY COMBO BINS

1110 Series

The Job Determines the Container

The 1110 series of Poly Combo bins feature multi-use bulk containers with molded-in legs for economy and ease of handling. Our seamless one-piece construction, coupled with a reinforced top edge and extra thick corners are engineered to add strength and resist impact and wear. This series is both nestable (reducing space requirements) and stackable (when combined with optional lid).

- Molded Legs
- Stacks 2 High Full with Optional Stack Lid
- Nestable and Stackable Lid

Item Number	Dimension inches CM	Weight LBS KG	Capacity
