

POLY COMBO BINS

1140 Series

“The Job Determines the Container”

The 1140 series of Poly Combo Bins feature multi-use bulk containers with a replaceable double wall, four way entry pallet base. Our seamless construction, coupled with a reinforced top edge and extra thick corners, are engineered to add strength and resist impact and wear. The series is both nestable (reducing space requirements) and stackable (when combined with optional lid). The smooth bottom is designed for fast, easy cleaning. Heavy Duty options available for more demanding applications or custom designs and special sizes available.

- Easy to Clean
- Smooth Interior
- Easy to Replace Pallet Base
- Removable/Replaceable Base
- Nestable and Stackable with Lid
- Stacks 2 High Full with Optional Stack Lid

- USDA/FDA Approval
- Easy to Clean
- High Density Polyethylene Construction

USES:

- Meat
- Poultry
- Grain
- Processed Food
- Material Handling
- Recycling
