Winder Assembly

Below are instructions on how to use the winder assembly with a CDF form-fit liner.

Item needed: Winder

Tote is ready for dispense.

Place winder on opposite side of dispense location.

Tear perforated flap from liner.

Insert perforated flap into winder.

Before dispensing, start winding flaps into winder.

As liner dispenses, continue to wind liner into winder and move toward dispense fitment.

Continue winding pass fill fitment.

Liner is fully dispensed.
