Ideal For All Strip Door Applications

TRAX Plastic Strip Doors provide an excellent solution to a variety of environmental challenges in the work place. They provide an excellent thermal barrier, keeping the cool and warm air exchange to a minimum therefore dramatically reducing energy costs and providing a more comfortable working environment. Noise, dust, wind and rain are also effectively controlled using TRAX Plastic Strip Doors.

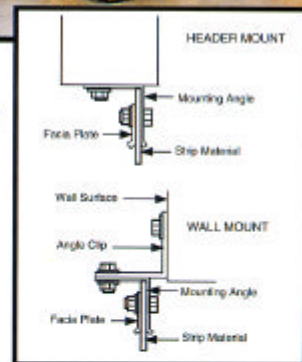

Warehouse or loading dock doors are made up of 8", 12", or 16" wide strips with our complete galvanized steel hardware assembly.

Personnel Strip Doors

TRAX Personnel Style Strip Doors are ideal for any opening up to 8' high. They are made up of 8" wide strips with a 2" overlap and our Aluminum Hinge hardware assembly. Perfect for walk-in coolers and freezers!

All TRAX Plastic Strip Doors are available in Standard Clear vinyl, USDA Low-Temp material for below freezing applications, and the unique Full-Rib design for greater strength and durability when used with cart and forklift traffic.

Overlap Options
