Flexi-Bins®

TAKE CONTROL OF INVENTORY ORGANIZATION

Take control of inventory organization and access in a way you never thought possible with economical Flexi-Bins® storage solutions. Flexi-Bins® easily adjustable sliding dividers and modular design allows you access to small parts and storage items instantly and easily. Sliding dividers adjust horizontally, and self-locking shelves can be raised and lowered without disturbing shelf contents for even greater time saving convenience. Efficiently organize and store items ranging from electrical components, small parts, tools and hardware to literature, binders and small boxes. Flexi-Bins® standard white back panels improve picking visibility and efficiency. Optional trim panels are available for a finished appearance. Install Flexi-Bins® as stand alone units or in back-to-back rows. Today, Flexi-Bins® are a favorite among auto parts stores, distribution outlets and retail operations. For improved inventory control and organization it's impossible to beat the functionality and value of Flexi-Bins®.

Sliding dividers create shelf compartments perfectly sized for your inventory. The patented formed-in label holder travels with the divider when parts are rearranged.

Add or remove slide-in shelves. Shelves adjust on 1-1/2" increments and lock in place automatically.
