# Create *Exciting* Opportunities In Your Supermarket

## RETAIL DISPLAY KIOSK

Enhance Cross Merchandising Opportunities  
Portable . Requires no Mechanical Refrigeration

Fish display w/sneeze guard

Bonar Plastics' [Retail Display Kiosk](#) creates new opportunities within your supermarket. Creatively display fish or seafood using the kiosk and the optional sneeze guard. The sneeze guard covers merchandise while allowing employees easy access from

the back of the display. Or, allow customers to choose items like fruits and vegetables directly from an open display. Kiosks require no mechanical refrigeration so they can be placed anywhere throughout your store.

Open display with fruit

Each [Retail Display Kiosk](#) is manufactured with FDA approved materials. These durable, portable, easy to clean kiosks will last through years of use. Base units (IB 2100) are double wall constructed using quality polyethylene and thick polyurethane foam insulation. The ice tray is just as durable and is designed specifically for the kiosk.

IB 2100

Ice Tray

The optional, two-piece sneeze guard is manufactured from high quality acrylic. Every [Retail Display Kiosk](#) comes with our no-leak plug that ensures a tight fit. Nylon-wear foot pads help protect supermarket floors. Boxes are stackable 3-high (without sneeze guard and/or lid) saving valuable floor space.
