

PREDATOR PLATINUM

Platform Automatic Stretch Wrap System

The Predator Platinum improves productivity by automatically wrapping loads with just a push of the remote. The automatic film attach, cut, and wipe down is the most advanced in the industry and improves productivity by up to 40%.

The Predator Platinum is a true fully automatic system with built-in features for increased productivity that are not available on other simpler automatics.

Automatic Film Clamp, Cut, and Wipedown

Remote control starts wrap cycle. At the end of the cycle the film jaws grip the film and the hot wire severs the web. The whale tail brushes the film on the load for the best film wipe down in the industry.

Select-Stretch™

Select Stretch™ allows you to quickly changes your pre-stretch level from 230% to 270% with the press of a button.

Side-Mounted Carriage with Fast Film Feed

Side mounted carriage with Fast Film Feed for easy and quick film threading.

Advanced Electrical Controls

The touchscreen controls provide easy user flexibility for program changes and help screens. Control Panel swivels 360° for full viewing from virtually any angle.
