YOU DESERVE MORE

Traditional anti-fatigue mats no longer meet the needs of today's Lean manufacturers. You deserve more. We've spent the past 10 years developing and honing a premium product that elevates the health, safety and productivity of your people, along with a custom mat design process that makes designing any shape, size, angles, cutouts, and features as simple as ordering standard mats. This combination is one reason some of the world's leading manufacturers continue to partner with AcroMat.

-Andersen Windows,
Menomonie, WI

BEFORE

CUSTOM MADE SIMPLE

It's always a concern when someone calls because an operator tripped over or slipped on a bad mat. From broken arms to serious head injuries, I've seen it all over my 15+ years with AcroMat. The biggest concern is the hesitance we often see by safety leaders to replace these mats. In my experience, there are two reasons unsafe mats are left unattended or replaced with a poorly fitting mat:

Reason 1: It takes too long to fix

Designing a custom mat that fits perfectly in your environment is usually a complex, back-and-forth process that takes weeks.

Reason 2: It's cost prohibitive

Once a quote is finally obtained for the needed custom mat, it's often 4X or more the cost of standard, off-the-shelf mats.

At AcroMat, we've made it our mission to make custom mats as easy, propulsive and cost efficient as standard mats. We've engineered an online precision mat drawing tool called AcroSketch. The only tool of its kind, AcroSketch gives you the ability to design the perfect mat in minutes, see instant pricing, and have it hand-crafted and shipped within 10 business days.

"Consistent, quality products. That's one thing that really keeps us going with AcroMat."
-Patrick Shoemaker, Manufacturing Engineer,
Andersen Windows

JOIN THE FAN CLUB

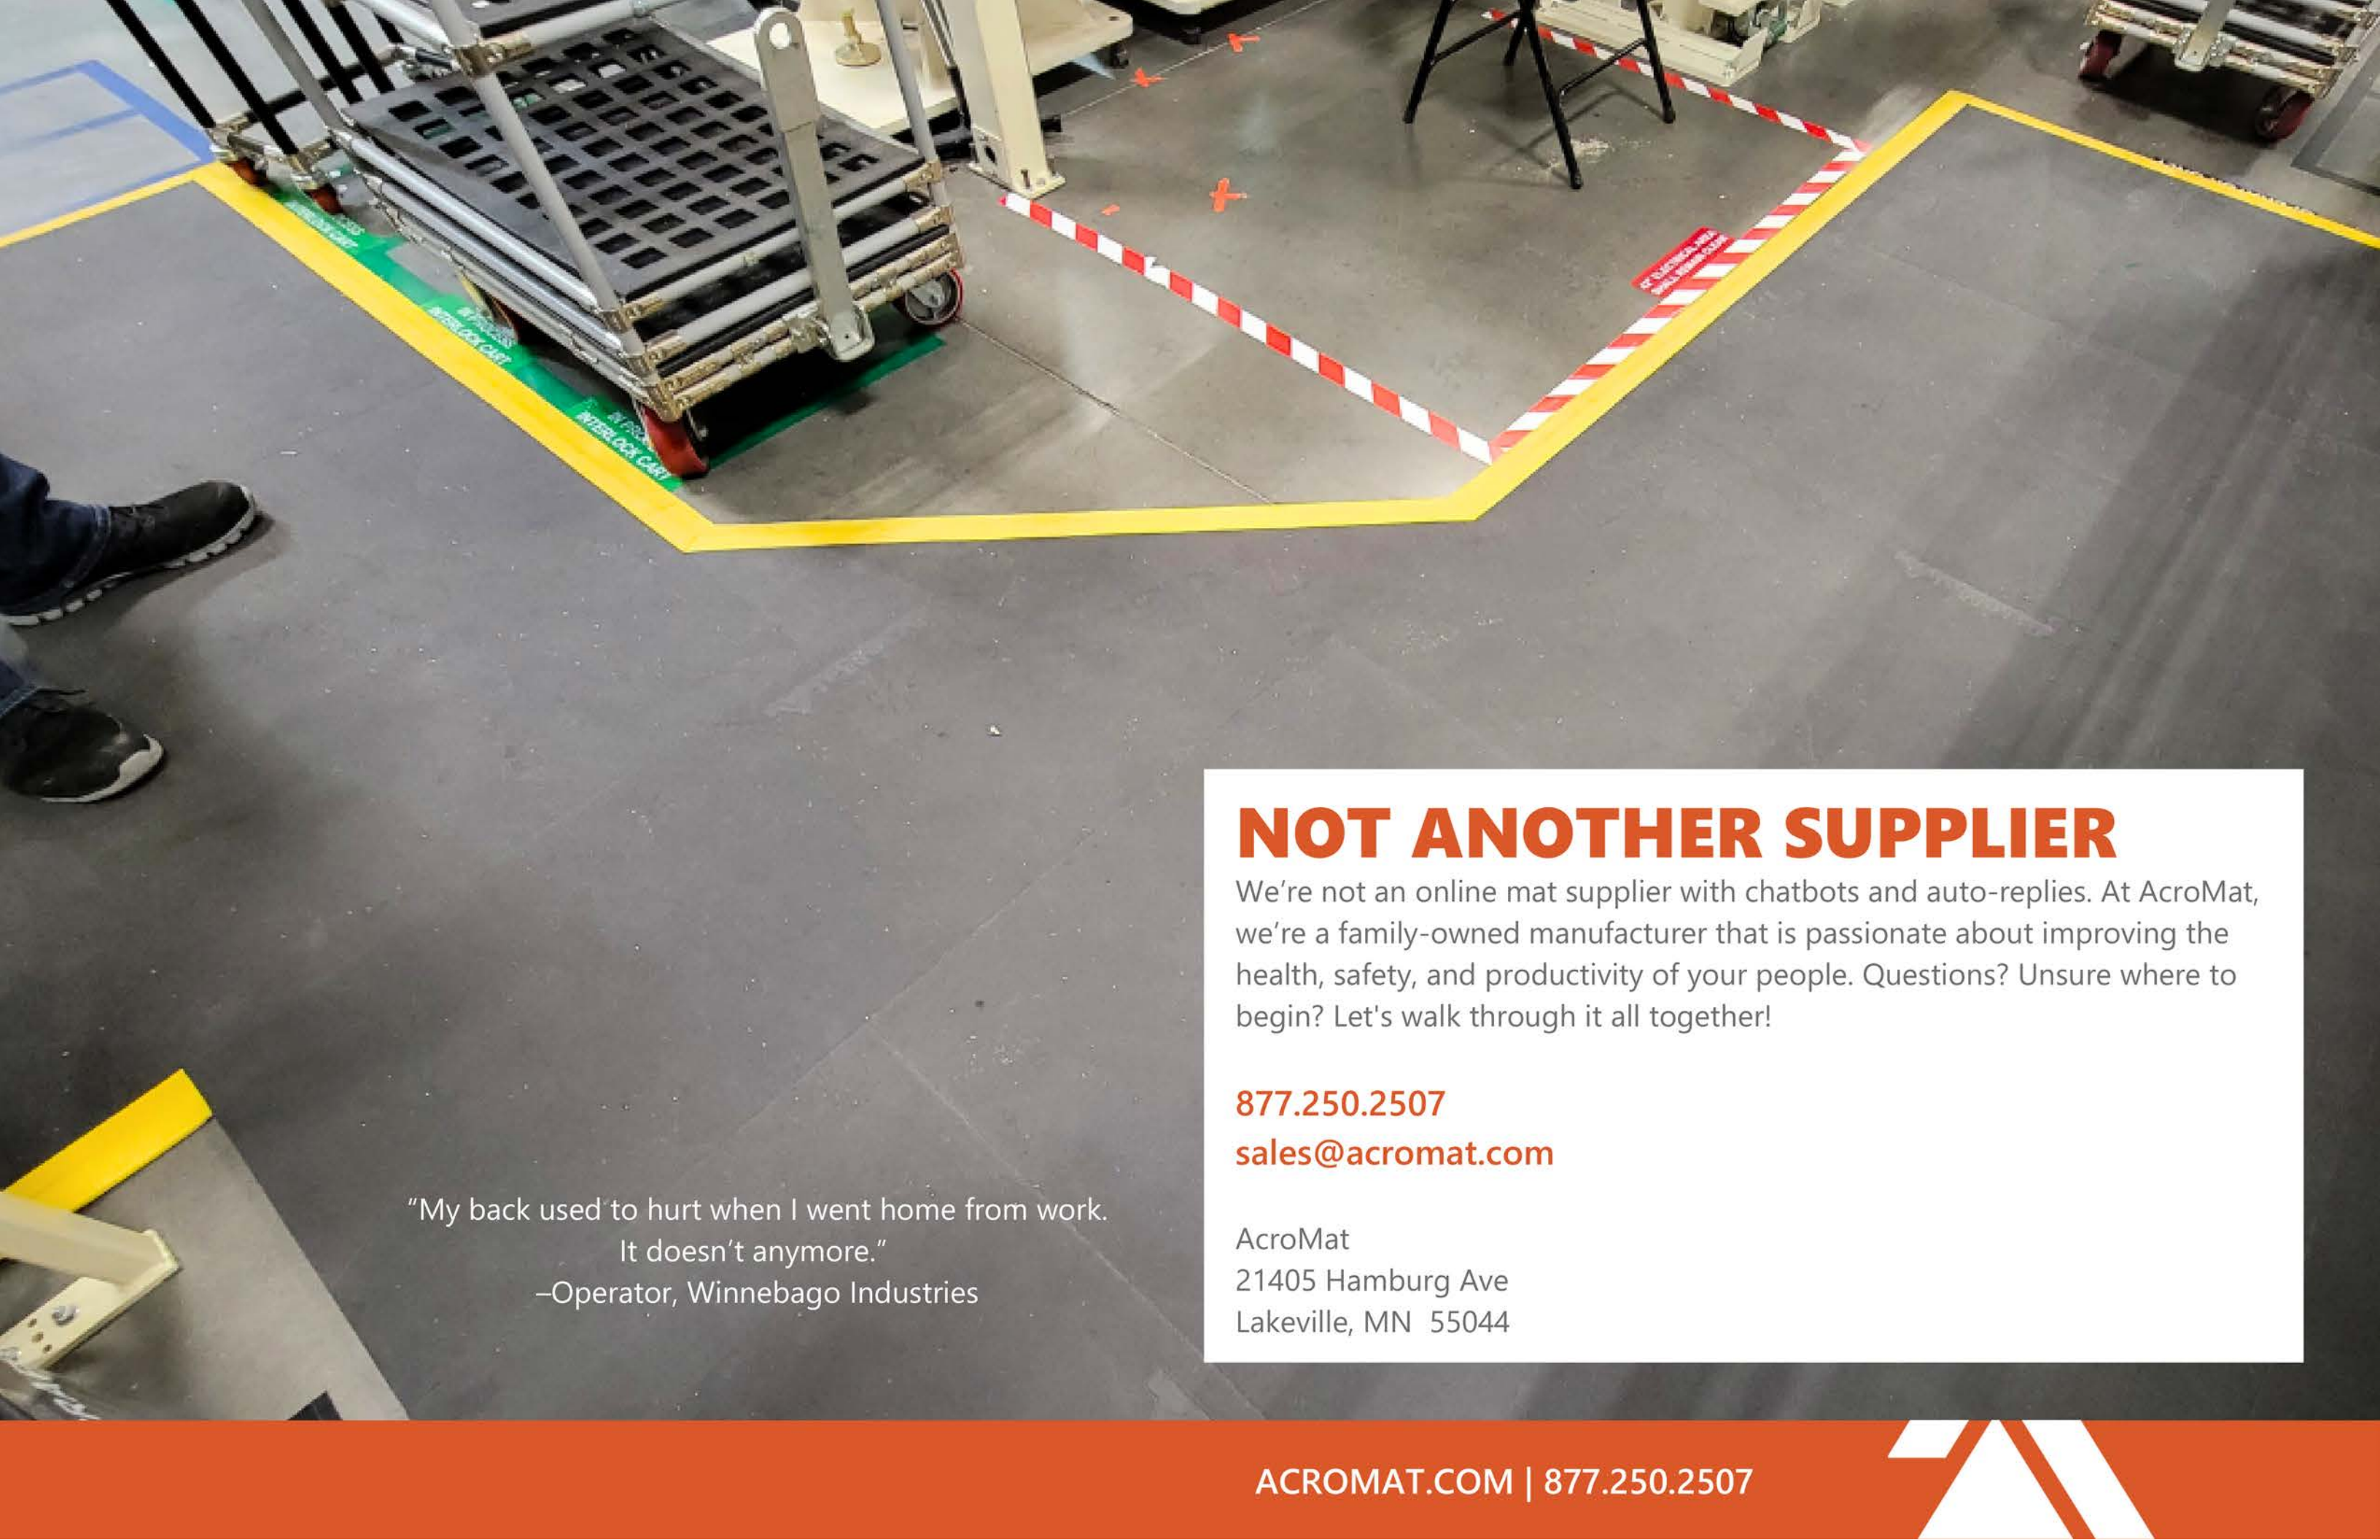

"AcroMat does customer service well. They were so easy to work with. From initial calls to the on-site visit, AcroMat listened to our needs. They provided solutions for the different work areas in our facility, from office to warehouse to machine shop, and each solution met the different needs of those work areas. Delivery was quick. Each mat was labeled with the specific workspace it was meant for, saving us from having to identify and sort a pallet full of mats. I couldn't be more pleased with the friendly, efficient customer service, delivery and quality of product."

—Betsy Kauffman, HR Manager,
Rigid Hitch Inc.

—nVent, Anoka, MN

"My back used to hurt when I went home from work.
It doesn't anymore."
-Operator, Winnebago Industries

NOT ANOTHER SUPPLIER

We're not an online mat supplier with chatbots and auto-replies. At AcroMat, we're a family-owned manufacturer that is passionate about improving the health, safety, and productivity of your people. Questions? Unsure where to begin? Let's walk through it all together!
