

HyGo

Mobile Cleaning Station

Hygiene, Efficiency,
& Maneuverability
All in One Solution

Wherever you go, **HyGo**

HyGo from Vikan is the food and beverage industry's first mobile cleaning station to combine hygiene, efficiency, and maneuverability in one purpose-built solution.

HyGo's design combines industry feedback and Vikan's own expertise, making it the ideal compact solution to organize and transport sanitation tools in food production, food service, and retail environments.

HyGo is durable and designed with cleanability in mind. Smooth, drainable surfaces and minimal harborage points reduce the risk of contamination.

Beyond elevating sanitation efforts, HyGo also conquers space challenges, lost equipment, and wasted time. With a fleet of customizable HyGos on the production floor, tools stay organized and get to where they are needed quickly.

HyGo is also available in six colors to support your color-coding programs.

Reasons to try HyGo

01

Compact maneuverability

HyGo's compact design transports your cleaning tools to exactly where you need them and conveniently rolls out of the way when not in use.

02

Customizable storage

Not only does it come in a range of colors, HyGo can be customized to suit users' needs and preferences.

03

Durable construction

HyGo a purpose-built solution that has been tested to take on the unique challenges posed by food handling environments.

04

End-user driven design

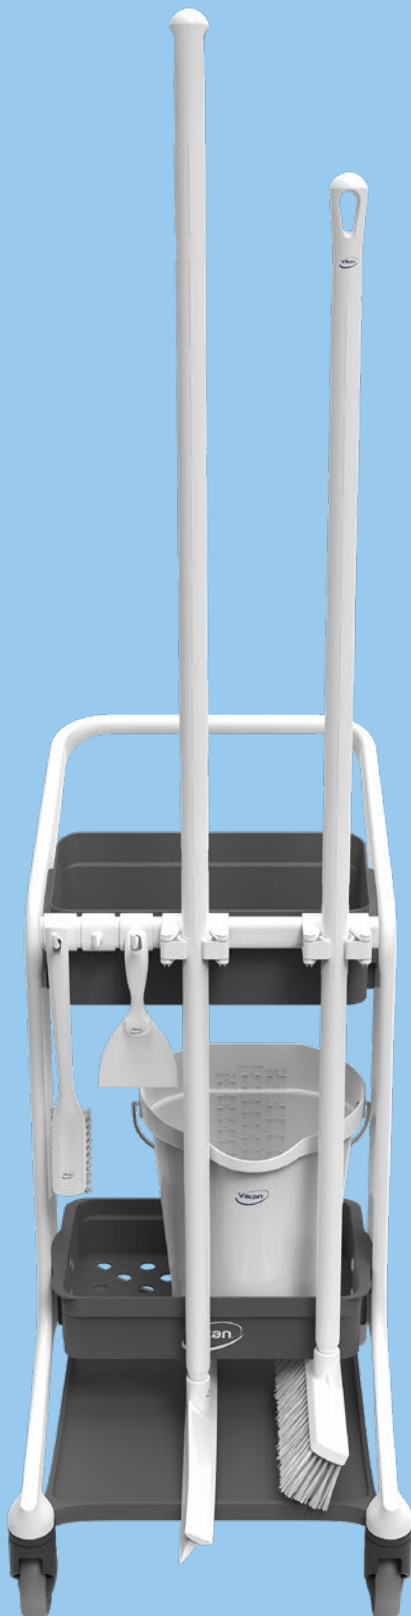

HyGo was developed in close cooperation with food industry professionals to ensure it is tailored to their needs.

05

Improved efficiency

HyGo keeps tools organized and readily accessible, reducing wasted time and effort spent searching for, transporting, and storing cleaning tools.

Design Features

Cleaning and storage efficiency

- Reduces time spent locating tools, transporting them to where they're needed, and returning them to their storage location.
- Stores cleaning tools after use, minimizes the risk of tool damage, and keeps tools organized for future use.
- Allows employees to move more cleaning resources at the same time, including heavy chemical containers and unwieldy brooms.

Purpose-built

- Developed from industry feedback and input.
- Made from the same high-quality materials as other tools in our hygiene range.

Compact maneuverability

- Designed to fit in small spaces and easily pass through narrow doorways.
- The cleaning station's low center of gravity helps prevent tipping, while the wheel placement and their 360° rotation ensure excellent maneuverability even over drains, door thresholds, and rough floors.

Designed with cleanability in mind

- The drainable trays and frame help reduce pooling liquids, helping HyGo dry quickly after cleaning.
- Hygienic design features like smooth surface finishes with rounded corners and edges reduce harborage points, making HyGo easier to clean.
- The frame and handle of the cleaning station are formed of solid polypropylene, eliminating the risk of fluids becoming trapped inside.

Color-coded

- Available in 6 colors to support your color-coding system, helping minimize the risk of cross-contamination.
- The side bars, handle, and tool brackets are colored to quickly identify whether tools are being used and stored in the correct area.

Functionality

Customizable tool storage

- The top tray is designed for mounting tool brackets on the front and/or back.
- You can configure the brackets to suit your facility and easily change them as needed.
- HyGo includes: one tool bracket rail, two grip band modules, and three hooks to accommodate five tools.
- Up to 12 tools can be mounted on HyGo with additional accessories.

Durable construction

- The top tray can hold up to 26 lbs.
Example: one XL Hand Brush and one half-gallon chemical container.
- The middle tray can hold up to 44 lbs.
Example: one 5 gallon Vikan bucket (5686x), or two 2 gallon containers.

Sturdy locking wheels

- Reduce noise while rolling and easily clear obstacles like drains, floor junctions, and door thresholds.
- Locks on the back wheels can keep the cart in place and easily unlock when it's time to move again.

Easy assembly & disassembly

- The mobile cleaning station can be disassembled and reassembled for easy cleaning.
- Max. cleaning temperature is 199°F.
- A printed assembly guide and a link to an online assembly video are included.

Part number

5700x
